Remarks

One or more photo(s) has been virtually staged. Experience elevated coastal living in this nearly new Coastal Modern Farmhouse, thoughtfully built in 2025 by WG Homes with exceptional quality and craftsmanship. Constructed with solid block all the way up and topped with a standing-seam metal roof, this two-story residence offers five bedrooms, four-and-a-half baths, and a spacious, well-designed layout ideal for both everyday living and entertaining. Inside, soaring ceilings and abundant natural light define the open first-floor living spaces, complemented by beautiful wood flooring and designer finishes throughout. The chef's kitchen features top-of-the-line Thermador appliances, a large hidden walk-in pantry, dry bar, and seamless flow to the dining and living areas. A private office, along with a well-appointed laundry and mudroom, enhances everyday functionality. The first-floor primary suite offers a serene retreat with a soaking tub, spa-inspired shower, and expansive walk-in closet designed for comfort and convenience. Upstairs, you'll find three bedrooms, three full bathrooms, and a spacious bonus room with closet that could easily function as an additional bedroom, media room, playroom, or lounge. Vaulted ceilings in many of the upstairs rooms add architectural character.
